

DISTINGUISHED MEMBERS

John M. Alexander

**Sr. Vice President | General Manager | Vice Pres. Bus. Development
Active Board Member - Cleveland Engineering Society (CES)**

John has held multiple Executive Management positions with the most recent being Energy Sector and Project Director for NEXUS Engineering Group LLC headquartered in Cleveland, Ohio. He is in his second term on the CES Board of Directors and is co-chair of the Marketing Committee.

In his 34+ year professional career, John has successfully managed major EPC projects, large technical teams, and large sales teams. A Mechanical Engineer from Northeast Ohio, John has traveled the world on assignments that include the construction, installation, start-up, and commissioning of a number of industrial plants and equipment.

He is a former member of the Rocky Mountain Electric League (RMEL), Geothermal Resource Council (GRC), Association of Iron and Steel Technologies (AIST), and American Society of Mechanical Engineers (ASME).

Previous to his last 17 years in the Power Industry, he cut his engineering “teeth” in a host of industries to include; Tire and Rubber, Automotive, Aerospace, and Pharmaceutical/Medical Device where he holds multiple patents for the development of new technologies specific to the manufacture of latex products, material handling, and machine design.

On a personal note and away from the office, John is the proud father of three dynamic children, the oldest, a daughter, graduated with a BS in Kinesiology and BS in Nursing while playing Lacrosse at Colorado Mesa University. She is currently employed by the Cleveland Clinic, serves in the USAFR as a Flight Nurse and is pursuing her Doctorate in Nursing Practitioner at Ohio University.

The elder son, also an accomplished high school athlete in the sports of basketball and football, attended Colorado State University and currently owns and manages an agricultural consulting firm with concentration in the commercial hemp industry.

The youngest son completed his BS degree in Agricultural Business Management while a scholarship athlete playing football for the Spartans at Michigan State University. He is currently employed with Lockheed-Martin, Space Satellite Group as a Program Manager near Denver, CO.

John recognizes his marriage of 33 years, to his best friend and wife, Lora, as his best success and testament to his character and commitment. After coaching 20 years of youth football and basketball, he was no stranger to success in this arena as well. As a Head Coach he can account for an overall record of 131 wins and 23 losses across both sports to include multiple Championships. In his “spare” time, he rarely turns down the opportunity to hit the links, hit the beach or hunt pheasant.
